## EDMONSTON ROAD WATER MAIN REPLACEMENT

The Washington Suburban Sanitary Commission recently released additional information regarding the Edmonston Road Water Main Replacement Project. As part of the project, WSSC will replace/rehabilitate 1.73 miles of 16-inch, 14-inch, 10-inch, 8-inch and 6-inch water mains with new zinc-coated ductile iron pipe, which is expected to last for at least 100 years.

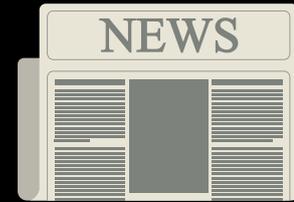

The existing pipes were installed between the 1930s and 1960s and are in need of replacement.

WSSC will replace the portion of the water service line between their water main and the property line connection. The work will cover the length of Edmonston Road from Seminole Street all the way to Yarrow and College Park Estates.

Construction on the project is not estimated to begin until Summer 2021. However, once it starts residents can anticipate disruptions in water service, possible tree pruning and removal, and increased traffic delays on Edmonston Road.

## REMINDER: COMMUNITY GARDEN CELEBRATION

The Berwyn Heights Community Garden will be celebrating its fourth year on September 29, 2018 at 2:00 p.m. Come join members of the community for food and fellowship. The garden is located on the right side of 59th Street facing North prior to Greenbelt Road.

## NEWS YOU CAN USE

The Town Council will hold a Work Session on October 1, 2018 at 7:00 p.m. The agenda includes an update from Andrew Fellows on the Town's collaboration with the University of Maryland Center for Smart Growth and a review of Council Rules 1-5.
